Research & Projects

2024 – Present	Minimum Energy Performance Standards and Housing Price Capitalization: Evidence from France's Rental Ban
	The paper shows that the 2021 French rental ban triggers an added ~9-point price discount for inefficient homes and increases their sales as owners choose to divest rather than retrofit. Co-author: Prof. Alexandre Garel*. (Working Paper Available on SSRN)
2022	Do ESG controversies drive the investors' reaction in the French market?
	This thesis provides evidence of a negative market reaction to controversies, demonstrating that the impact extends beyond the company to affect the entire industry or market. Thesis supervisor: Prof. Alexandre Garel. (Thesis available on ResearchGate)
